

TOGETHER...

We can make a difference

2006-2007
Annual Report

FROM THE PRESIDENT AND EXECUTIVE DIRECTOR

We are pleased to present the AIDS Council of Northeastern New York's Annual Report for July 1, 2006 - June 30, 2007. This year, we continued to provide direct support services and cutting edge prevention to those most in need. Through the help of our friends and supporters in Northeastern New York - many of whom are listed in this report - we make an impact every day.

We continued to offer compassionate care and access to essential services for over 900 people who face the realities of living with HIV/AIDS. We saw a 15 percent increase in the number of HIV positive individuals served through our community case management and support programs. We identified an increased need for services in rural areas, expanding Intensive Case Management (ICM) in Glens Falls and Plattsburgh, as a result. More people came to us for help identifying substance abuse problems, getting into new housing, accessing essential financial support and health services, traveling to appointments, addressing depression, anxiety and family problems and reducing worries so they can focus on health care and treatment regimens.

The AIDS Council expanded its prevention services to address the impact of "gateway" diseases to HIV including hepatitis and other STDs. People who engage in behaviors which place them at risk for these diseases are at a significantly increased risk for HIV infection. In addition to testing for chlamydia and gonorrhea (which we have been conducting since 2002), we expanded our testing and prevention efforts for hepatitis C and initiated syphilis testing among Men who have Sex with Men (MSM). We participated in a program that links high risk individuals to the hepatitis A/B vaccines.

We launched our *Given the Chance* (GTC) initiative to address HIV, hepatitis and substance abuse prevention needs within communities of color in the Capital Region. GTC is designed to tackle one of the hardest hit populations by offering a multi-pronged approach to halting the spread of HIV. GTC services include transitional case management for those who are negative or of unknown HIV status, use of trained peers to do enhanced outreach, testing and *Safety Counts* (an evidenced-based intervention).

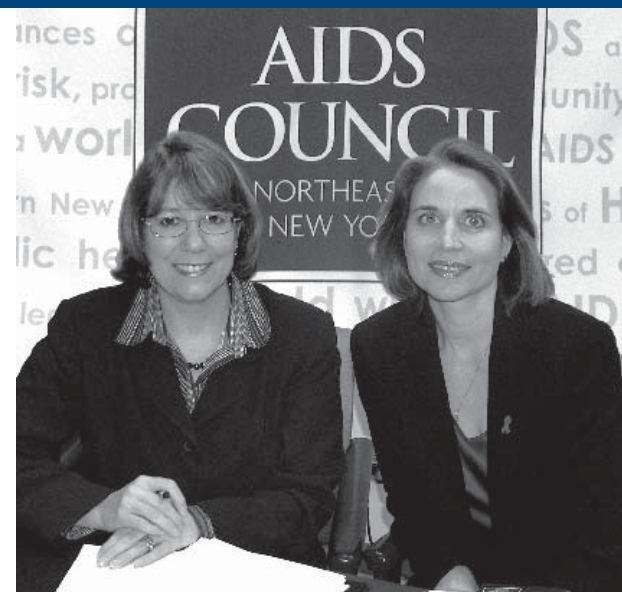

We experienced a 23 percent increase in the number of HIV counseling and testing sessions performed. We began offering counseling and testing services during evening hours once a month to accommodate individuals unable to access services during the workday. We established a *Prevention with Positives* program to work with MSM to prevent infected persons from passing HIV onto others, prevent reinfection and build positive health outcomes. We started a *Peer Outreach* program where credible leaders within targeted communities are trained and supported to provide outreach and other key services to engage participants.

There is still no cure for AIDS, but HIV infection is fully preventable. Those of us who work with HIV/AIDS on a daily basis know the epidemic is still raging. To have any kind of impact, we must tirelessly get out messages that make people pay attention. We believe that we serve our community in this way.

Thank you for helping to stem the spread of the epidemic in our region and lessen the devastation that HIV causes among those who live with the disease. Together, we can make a difference.

Joan Hayner
Board President

Michele McClave
Executive Director

Michele McClave, Executive Director and
Joan R. Hayner, President Board of Directors

VISION STATEMENT

The AIDS Council of Northeastern New York advances awareness of HIV/AIDS as a public health risk, promoting a shared community response leading to a world without AIDS.

THANK YOU...

We extend heartfelt thanks to the following board members who completed their board terms during fiscal year 2006-2007: Tom Carty, William (Scott) Daly, Georgia Kelly, Hayward D. Horton, Cathy Masie and Carol Zajac. Thank you for your service in support of our shared mission!

NORTH COUNTRY REPORT

The Plattsburgh office piloted Medicaid Case Management. Half of the 32 Plattsburgh clients are enrolled in these essential services. The Plattsburgh office formed a partnership with Clinton County Department of Health and Northern Adirondack Planned Parenthood to promote HIV Test Counseling in Clinton County. The group, Clinton County Partners for Awareness and Service, developed and distributed brochures, fliers and posters. The partners also collaborated on a World AIDS Day event offering HIV testing, hepatitis vaccinations and prevention information. The *Press-Republican* printed a story featuring the efforts of the partners as well as the World AIDS Day Event.

In response to the *Press-Republican* story, Essex County Public Health Department contacted the AIDS Council requesting that a similar partnership be formed in Essex County. The Plattsburgh office has formed a partnership with Essex County Public Health, Planned Parenthood of Mohawk Hudson and the Sexuality Assault services of Essex County to promote HIV testing in Essex County. The group, Essex County HIV Alliance, meets quarterly, and has written press releases and has developed brochures and posters for distribution.

The Plattsburgh office joined the efforts of the Albany office in Dining Out For Life®. Two restaurants participated in the successful event. The *Press-Republican* provided in-kind advertising.

Plattsburgh staff attended the People First Coordinated Care Forum in Plattsburgh. Forums were held throughout the state by the commissioners of four state agencies to gather input from providers and consumers who access services across multiple systems regarding access to care and coordination of services. We raised the issue of access to medical services and quality of services for people on Medicaid or AIDS Drug Assistance Program (ADAP) and also addressed duplication of services between service agencies who bill Medicaid for services.

New bilingual outreach kits and bracelets were developed for the Build A'Wear'Ness Campaign

REDESIGNED WEBSITE

With thought given to making our site more user friendly and less text heavy, our website (www.aidsCouncil.org) was redesigned with a fresh new look. A blog has been added to our home page, with frequent updates of AIDS Council news.

Research has been done to determine how people are using our site, and revisions continue to address the needs of our constituents, donors and guests. We hope you like the improvements. Be sure to check the site often for updates.

TOGETHER . . .

We help one another

CLIENT SERVICES

Providing direct support services to persons living with HIV/AIDS is at the heart of our mission. We offer a range of support to clients enrolled in our case management program and assist HIV positive individuals who are serviced by other organizations. Our case managers work collaboratively with clients helping them access and prioritize their needs and obtain the services and support required so that they can succeed in managing their illness.

In addition to our core services we provided the following:

- Staff were present at the Albany Damien Center to assist clients with accessing AIDS Council services. Our Substance Abuse Specialist facilitated a weekly support group for HIV+ persons in recovery.
- Client Services Department staff were trained on Motivational Interviewing techniques. Motivational Interviewing is an extremely useful technique when working with clients. It helps case managers gather important information using a conversational style.
- The client cookout held at the Colonie Town Park on August 2 was attended by more than 70 clients, spouses and their children representing the Albany, Schenectady, Troy and Hudson offices. Similarly, Glens Falls clients enjoyed a late summer cookout on September 13 that was well attended.
- The Hudson luncheon program continued with lunches held in the Hudson office every 2 weeks.
- On December 20 the agency held its annual Client Holiday Dinner. The dinner was attended by more than 100 clients and their families from throughout the Capital District and Columbia, Greene, Warren and Washington Counties. Volunteers served a dinner enjoyed by everyone and Our Brothers' Keepers Foundation donated gift and toiletry items for the event with every attendee receiving a gift bag at the end of the evening.
- Over sixty children of clients received school supplies prior to the start of the school year. Additionally, families in need received gift cards to help purchase school clothing.
- 116 clients and their families were served through the Holiday Sponsor program. 67 families were adopted and an additional 49 families received clothing and gifts donated through the toiletry drive sponsored by the Reformed Church Synod.
- The Glens Falls area office moved to its new location in Hudson Falls in March providing better accessibility, enabling us to improve services for our clients.

SUMMARY OF SERVICES TO CLIENTS

CLIENT SERVICES	INDIVIDUALS
Case Management:	714
Transitional Planning: (In Correctional Facilities)	152
Mental Health Services:	104
Substance Abuse Services:	101
Housing, Utilities and Emergency Assistance:	1050*
Long Term Housing Assistance:	106**
Transportation:	288 clients (7805 rides)

*Includes 554 family members

**Includes 50 family members

PREVENTION SERVICES

The Prevention Services Department employs science-based, culturally appropriate, prevention interventions of the highest quality. Through a range of services, we reach high risk communities and work with individuals at their unique point of readiness to change. Cutting-edge initiatives for the year included:

- **Given the Chance**, a program to address HIV, hepatitis and substance abuse prevention needs of communities of color in the Capital District, was launched. **Given the Chance** services include:
 - **Community Reentry Services:** Through facilitated referral, ongoing support, and follow-up services, our Community Reentry Specialist assists individuals to make healthy transitions into the community from correctional facilities and residential treatment programs.
 - **Transitional Case Management (Recovery Readiness):** Provides expanded and expedited access into drug treatment through established linkages. The Transitional Case Manager works with active drug users to prepare for referrals into treatment and to encourage acceptance of drug treatment.
 - **Safety Counts:** An evidenced-based intervention that encourages and supports the recovery process, prevents relapse, and reduces HIV and hepatitis risk. This client-centered approach uses structured group and individual activities to assist clients in developing personal risk reduction goals, specific steps for achieving them and includes opportunities for social networking.
 - **HIV Counseling and Testing:** Confidential HIV counseling and testing in easy-to-access community settings. Sessions include individualized risk assessment and risk reduction counseling.
 - **Hepatitis C Testing:** Confidential hepatitis C counseling and testing to those identified at risk through injection drug use.
 - **STD Screening:** Increased access to urine-based screening for chlamydia and gonorrhea in community-based settings. Individual sessions include risk reduction planning.
 - **Enhanced Outreach:** An updated version of traditional street outreach, **Enhanced Outreach** uses multiple encounters with individual clients to develop relationships that set the stage for linkages to services.
 - **Peer Associates Initiative:** Community members, having completed **Safety Counts**, are trained to provide outreach and other key services to at-risk individuals. Peer Associate involvement supports the Peer's recovery and safer behaviors while serving as a credible resource within the community.
- **Project HOPE** initiated our specialized prevention with positives initiative. MSM+ clients worked one on one with a counselor to reduce transmission of HIV.
- **Project HOPE** collaborated with the AIDS Institute to conduct a forum for the Capital Region. The forum focused on key issues related to the MSM community and MSM communities of color in HIV health, prevention, education and risk reduction. Attended by community leaders and HIV positive individuals, the forum elicited suggestions for new strategies in HIV prevention and care.
- We developed systems to incorporate syphilis testing into **Project HOPE** services, beginning at the River Street Club.
- Prevention Services staff developed a technology-based curriculum to utilize with at-risk youth. The program utilizes computer-based technology and videography skills whereby youth create a variety of HIV-related media, including an HIV/STD prevention game, interactive computer-based quizzes on HIV/STD/substance use risks, and HIV/STD Public Service Announcements.
- Through funds provided by the Community Foundation of the Capital Region, new outreach kits targeted to communities of color were developed. The kit packaging is a transparent pillow box, housing an information card and safer sex supplies and wrapped with a rubber bracelet imprinted with a simple saying symbolic of the "Build A'Wear'Ness" campaign. Kits are in English and Spanish.
- The Prevention Services Department, in collaboration with Provider Consulting Services, conducted a formal evaluation of the Proud, Educated, Empowered, Responsible ("PEER") multiple session curriculum. Results indicate positive changes in attitudes, information acquisition and risky behaviors. In particular, participants identified increased use of condoms, increased HIV/STD testing and enhanced partner selection and/or communication.
- Significant increase in the number of hepatitis C screenings conducted yielded an average rate of 25% of those testing as hepatitis C positive.
- The AIDS Council, as part of a demonstration project through SAMHSA, provided distribution oversight of the Twinrix (hepatitis A/B) vaccine at two sites, successfully partnering with SPARC Guilderland and Bethesda House.

IN THE NEWS

This was an interesting year in terms of media coverage. A rare opportunity for international exposure came our way when the hit Reality TV show, *Extreme Makeover: Home Edition* came to Colonie. On May 21st, the two hour season finale of *Extreme Makeover, Home Edition* aired to an international audience.

- In October, an article in the *Post-Star* about AIDS Awareness Month and the World AIDS Day celebration in Glens Falls called for renewed focus on the AIDS epidemic. Staff was quoted in the article, "It is really a day of recognition of the devastation that AIDS has taken on our community and our planet."
- In April, *The Saratogian* wrote a feature article about Dining Out For Life®. Participating Restaurateurs expressed their eagerness to be involved in this effort.
- Michele McClave was interviewed regarding the Ryan White funding with an article appearing in *The Independent* on April 27th.
- An article on contraception, education and STD testing appeared in the *Press Republican* in May, and mentioned the AIDS Council as a resource for free testing.
- When the hit CBS Show *Extreme Makeover: Home Edition* came to Colonie to build a home for a single mother who adopted 2 children with HIV/AIDS, staff were interviewed by Eduardo Xol, one of the designers, regarding the stigma that remains for those living with HIV/AIDS.
- In June, a letter to the editor from the AIDS Council appeared in the *Daily Gazette* commenting on a rape victim's rights to protect against HIV infection.
- Mark Domaracki, a senior at Guilderland High School was featured as a player of the week on WNYT Channel 13 News. Mark volunteers for Helping Through Books and Music, and mentioned his service to the AIDS Council in his interview. Mark's mother and sister also volunteer for this project.
- An article, "Living A Positive Life" ran in several editions of the *Post Star* featuring an AIDS Council client. The story featured the many struggles she has faced since contracting HIV from her mother at birth.
- Staff was interviewed by the *Daily Gazette* regarding Project HOPE's funding and outreach programs in May.
- Staff and clients participated in a live call-in show on WMHT Healthlink Production hosted by Benita Zahn in May.
- An AIDS Council HIV Test Counselor was interviewed on WCDB, LA Mega, in June and discussed transmission of the disease, making informed choices on HIV testing and highlighted the bilingual testing offered by the AIDS Council.
- A Board Member was interviewed by Kate Perry of the *Times Union* in June. The article focused on a personal experience of living with HIV for many years.

Photo by Joan Heffler

SPECIAL EVENTS

Special events throughout the year raised thousands of dollars to support the critical programs and services at the AIDS Council. We thank the sponsors, volunteers, valued donors and participants that made these events a success.

- The 2006 Annual Benefit in Saratoga took place on Sunday, July 30th. The evening's theme, *Driven to Make a Difference* played on the new location of the event, the Saratoga Automobile Museum. We are grateful to our Presenting Sponsor MAC VIVA Glam and our Honorary Committee Co-Chairs Barry K. and Sheryl Schwartz, for helping us to raise over \$63,000. Board President, Joan Hayner, stressed the dedication of the AIDS Council, "We are on a mission to stop the spread of HIV and support those affected by it. In 22 years of service in this region, we have seen casualties and successes. The battle against HIV/AIDS isn't over. The AIDS Council will continue to be your trusted community resource for HIV prevention and support services for individuals and families affected by HIV/AIDS. *You can count on it.*"
- Recognized as one of the most popular events in the Capital Region, the 2006 Beaujolais Nouveau Wine Celebration attracted nearly 900 guests. The annual event is one of hundreds held worldwide on the same evening as the Beaujolais Nouveau first arrives in the U.S. This year's event showcased a variety of wines from around the world and featured 28 of the Capital Region's most notable chefs, restaurants, and caterers. The annual bash raised \$78,000 to support our cutting-edge prevention methods as well as our Client Services Emergency Fund.
- On April 26th, thirty-four restaurants from Plattsburgh to Hudson donated 25% of their gross food and soft drink sales to the AIDS Council of Northeastern New York's 2007 Dining Out For Life® event. This is the fourth year the AIDS Council has produced this event, which raised over \$30,000. KeyBank and FLY 92.3's generous sponsorship and promotion of this event helped us to raise 27% more money than in 2006!
- *Help Fight AIDS Through Books and Music*, our very special all volunteer-run project led by Steve Kozlowski raised over \$90,000 for the AIDS Council. The volunteers organize community books sales throughout the capital region and keep the shelves stocked at their permanent sale locations, The Treasure Chest and The Glenwood Manor Antique Center. The project also sells Entertainment Books, donated books and music online through half.com and through the project's website, www.helpfightaids.com.

SUMMARY OF FINANCIAL ACTIVITIES

Fiscal Year 2006 - 2007*

REVENUE AND SUPPORT

MISSION STATEMENT

The AIDS Council of Northeastern New York is a not-for-profit human service agency whose mission is to reduce the risk, fear and incidence of HIV infection, encourage the independence of people living with or affected by HIV/AIDS and promote understanding of their needs.
